FEATURED PROJECTS

NIDO — AI-Powered Home Management App

Capstone Project

Angular · .NET 9 · C# · PostgreSQL · Clean Architecture · OCR · AI

- Capstone project built by a team of 8, with an MVP delivered in 2 months. Centralizes pantry, recipes, chores, and finances for a shared household: AI-based recipe recommendations, a cooking assistant chat, receipt scanning via OCR, and price comparison across supermarkets. Worked full stack with Angular and .NET 9 (Clean Architecture).
